ORGANIC COCONUT PRODUCTS

www.ilovecoco.com

"From humble beginnings to where we are today- the journey has been a long one but through it all we have grown, expanded and have worked on improving our capacity and resources. We have been regarded and acknowledged over the years as a trusted supplier for international brands and earned a good reputation in the international markets.

It does not stop there, success is not limited to the financial realm as over the years we have heavily invested in CSR projects that enable us to help farmers living below the poverty line.

As a company we are grateful for the support and look forward to introduce more organic products and make a significant contribution to the socio-economic development of Sri Lanka.
